IP Address and Cookie Policy

Please read the following carefully to understand how and why this Website http://www.pamplonafunds.com/ ("the Website") uses your IP address and cookies.

Last Updated: **February 2026**

(hereinafter, the "**IP and Cookie Policy**").

Pamplona Capital Management ("**We**", "**Us**" "**Our**" or "**Pamplona**") collects certain information about you resulting from your use of its website, **http://www.pamplonafunds.com/**. As is common practice with almost all professional websites the Website uses cookies, which are tiny files that are downloaded to your computer, to enable you to browse our Website. A cookie, enables the website to remembers users that have already visited. Without a cookie, every time you open a new web page, the server where that page is stored will treat you like a completely new visitor. This page describes what information they gather, how we use it and why we sometimes need to store these cookies. We will also share how you can prevent cookies from being stored however this may downgrade or 'break' certain elements of the Website's function

Our practices in relation to the collection and processing of such personal information are set out in our privacy policy, https://www.pamplonafunds.com/.

Correspondingly, the practices which we have in place regarding the generation of aggregate information (as mentioned above) are described here in our IP and Cookie Policy.

(A) IP Address

What Happens When You Visit the Site

Every time you connect to the internet or, if you use an always-on connection, such as broadband or ADSL, when you boot up or restart your computer, you are automatically assigned a unique identifying number known as an IP Address. This IP Address, which contains information regarding the location of your computer on the internet (your country of origin) and the name of your internet service provider ("**ISP**"), is automatically logged by Our Site.

- **What is an IP Address?**

When you first started your internet session (i.e. your computer connected to the internet), your computer was automatically assigned a unique number (normally in the region of 9 or 10 decimal numbers), known as an IP Address. This is your computer's unique address on the internet. Without such an IP Address, websites would not be able to deliver their content to you as they would not be able to find your computer on the internet. Since each time you disconnect and reconnect to the internet a new IP Address is automatically assigned to your computer, IP Addresses are not inherently capable of identifying you as an individual (at least, by themselves).

An IP Address does, however, contain information regarding the location of your computer on the internet (your country) and the name of your ISP.

- **How Do We Collect Your IP Address**

Each time you visit a page on our Site, your computer sends out a message to our Site asking for the content. This message sent by your computer also encloses your IP Address as a form of "return address" so that the Site may find your computer in order to send it the requested content. Our web-server automatically logs all these messages.

(B) Cookies

Information About Our Use of Cookies

Our Site uses cookies to distinguish from other users of our Site. They allow us to administer the Site to help us to provide you with a good experience when you browse our Site and to improve it at the same time.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive. A cookie, enables the website to remembers users that have already visited. Without a cookie, every time you open a new web page, the server where that page is stored will treat you like a completely new visitor. Cookies allow us to remember your custom preferences such as your language preference and allow you to complete tasks without having to re-enter your information when browsing.

We use the following cookies:

- **Strictly necessary cookies**. These are cookies that are required for the operation of Our Site. Namely, by way of illustration, they include cookies that enable you to log into secure areas of Our Site.

- **Session cookies**. These cookies contain encrypted information to allow our system to uniquely identify you while you are logged in. Session cookies exist only during an online session. They disappear from your computer when you close your browser software. These allow us to process your requests and help us make sure you are who you say you are after you've logged in.

You can find more information about the individual cookies we use and the purposes which we use them in the table below:

Cookie	Name	Purpose	More information
Session Cookie	PHPSESSID	This allows our Website to recognise you when you return to our Wesbite	As you browse around the pages on this site, the session cookie tells the website that you are the same person requesting the webpages, and not a new visitor to each page. This

			cookie does not identify you personally and is not linked to any other information we store about you. This Cookie is deleted when you close your browser
Session Cookie	wordpress_test_cookie	This allows you to navigate to the login page on our Website	The cookie is used to check whether your web browser is set to allow, or reject cookies. This is also deleted with you close your web browser.

Please note that third parties (including advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies), you may not be able to access all or parts of our Site. Moreover, some parts of our Site may not function properly if you choose not to accept cookies.

Except for essential cookies, all cookies will expire after 30 days.

You can control the use of cookies at the individual browser level. If you reject cookies, you may still use our Site, but your ability to use some features or areas of our Site may be limited.
